The Farm Animal Practice vets will often be accompanied by final year veterinary students. We appreciate your help in training our students and hope that our prices reflect this.

You will never be charged extra if procedures take longer due to student training, and our vets will ensure that your animal's welfare is always put first.

This list above is not exhaustive and we can perform any procedures that you might require on any farm animal species.

For an estimate of costs or to discuss your requirements, please contact the Farm Animal Practice.
