The Advice Request Form should be used for non urgent matters. We can only offer advice based on the clinical findings you report to us, as the primary clinician, you are still responsible for the case management. Please call us on 0131 650 7650 if you have an urgent query.

A member of the Exotic animal and wildlife service will aim to contact you within 48 hours of receipt of your email (Monday to Friday). It helps us if you are able to give a range of contact times. Please be aware that our clinicians have clinical and teaching commitments so it can be difficult to respond at a specific time. We have requested the name (s) of other members of staff in order to help ensure your practice can receive a more prompt reply.

Further copies of this Form can be downloaded from our website: www.dickvetexotics.com

An invoice of £15 plus VAT will be sent to your practice after your fax has been replied to. Please ensure your practice detail and the client details are fully complete for your records.
