

Post-mortem services

We have received an email indirectly on the 27th May informing us that SRUC Veterinary Services are closing the Edinburgh Veterinary Investigation Centre post-mortem facilities on Friday 14th June 2019, and so will be unable to perform any post-mortems in the future.

However we will continue to maintain post-mortem services for all classes of livestock to all clients of the Farm Animal Practice.

There are a number of options available, and so any clients who would like a post-mortem done should ring Ali in the FAP reception on 0131 445 4468, and we can arrange for the post-mortem to be done.
