

The Royal (Dick) School of Veterinary Studies

Undergraduate Admissions 3-yearly figures

Entry Years: 2022-2024

The table below provides statistical data for both the 5-year BVM&S and 4-year Graduate Entry BVM&S programmes. Applications can vary both in number and quality between cycles therefore we would caution against using these statistics as solid predictors for future applications. We review our selection process annually therefore the way we select is subject to change.

From 2021 entry, Scotland fee rate includes UK nationals who are normally resident in Scotland, and EU nationals with settled/pre-settled status who are normally resident in the UK. The Scottish Government places strict limits on the number of Scotland fee rate students that Scottish universities can admit. This means that Scottish universities are limited in the number of offers they can make to Scotland fee rate applicants.

From 2021 entry, there are no Scottish Government limits placed on the number of 'Rest of UK' students (students from England, Wales and Northern Ireland) and Republic of Ireland students that Scottish universities can admit. However, due to limited capacity and the high volume of applications received, competition for places is very high.

From 2021 entry, there are no Scottish Government restrictions on the number of places available to international applicants paying the full Overseas fee rate. Now that Britain has left the European Union, most applicants from the EU (excluding the Republic of Ireland) are considered as international applicants. However, due to limited capacity and the high volume of applications received, competition for places is very high.

Those with a fee rate not established are those who did not have their fee status resolved before the outcome of their application (please note that as we do not make offers to those whose fee status is undetermined, these figures are only available for unsuccessful applicants)

5 year Programme (UCAS Code D100)	2024						2023						2022
